TERMS AND CONDITIONS

The purpose of this application is to authorize the collection of the information necessary to make a preliminary determination for the land you are asking to enroll in a conservation easement program. This application is not a binding contract on either party.

By signing this application, the landowner(s) agree to grant local soil and water conservation districts (SWCD) representative(s) permission to visit the parcel and to provide other ownership and title documents requested by the SWCD during this determination.

TENNESSEN WARNING NOTICE – Social Security Numbers

As a condition of receiving monetary compensation from the State of Minnesota, you will need to provide your tax identification numbers or social security number. Your social security number is private data under the Minnesota Government Data Practices Act. Private data on individuals is not available to the public, but it is available to other persons or entities authorized by law to receive the data. Your social security number may be given to the commissioner of revenue for purposes of tax administration. The social security number is also provided to the commissioner of finance for the issuance of 1099 tax forms. If the social security number is not provided, the easement application cannot be completed.

I, the landowner, certify that the answers to the questions on pages 2 and 3 of this form are true and correct to the best of my knowledge. I understand that the state cannot enter into a conservation easement on any land containing contaminants, pollutants, or hazardous substances. Further I understand that state law requires that all environmental problems located on the parcel to be enrolled must be properly cleaned up and any abandoned wells must be sealed at my expense before any conservation easements can be secured. Further I have read and understand the Tennessee warning notice.
