

2. Easement Compliance

Please note whether any of the following compliance concerns were present within the easement boundary during the site inspection. See site inspection guidance or the RIM Handbook for more information on each compliance concern below.

- A. Unauthorized crops are planted on easement or there is crop encroachment Yes No
- B. Unauthorized haying or grazing (without a BWSR approved haying/grazing agreement or plan) Yes No
- C. Permanent structures are present or being constructed Yes No
- D. Dumping or storage of materials, equipment, objects or junk Yes No
- E. Dumping, storage, or landfill of solid or hazardous wastes, including sewage sludge or bio-solids Yes No
- F. Unauthorized or extensive tree removal/harvesting (does not include invasive species) Yes No
- G. Noxious weeds are present and not being controlled Yes No
- H. Unauthorized or excessive mowing or spraying of chemicals (except for conservation management purposes) Yes No
- I. Extraction or mining of gravel, rock, topsoil, or minerals from the site by surface or subsurface mining Yes No
- J. Wildlife habitat, natural features, or vegetative cover have been modified or altered without BWSR approval Yes No
- K. Wetland water levels have been altered without BWSR approval Yes No Not Applicable
- L. Is this a follow-up inspection for a previous compliance concern? Yes No
If yes, is the concern still present? Yes No

If any easement compliance concerns above are marked “Yes”, please document with photos and attach map showing location and extent. Describe concern in detail below and submit a copy of this form and attachments to BWSR.

3. Easement Maintenance Concerns

Please note whether any of the following maintenance concerns were present during the site inspection.

- A. Easement boundary is not marked or posted Yes No
- B. Site is dominated (>50%) by undesirable vegetation Yes No
- C. Trees growing on berms/embankments (wetland restorations only) Yes No Not Applicable
- D. Visible rodent damage on embankments (wetland restorations only) Yes No Not Applicable
- E. Wetland restoration structures appear to be failing (wetland restorations only) Yes No Not Applicable

If any easement maintenance concerns above are marked “Yes”, please describe in detail below and submit a copy of this form to BWSR.

I certify that the above information is true based on my observations on the date of the inspection noted hereunder. I agree to notify BWSR of any observed compliance or maintenance concerns.
